ELITE BREEDER™ FEEDS

Use ELITE BREEDER™ Products during pre-calving, breeding and weaning. If antagonists such as high iron or sulphates in water or high molybdenum in forages are present, use ELITE BREEDER™ products.

FEATURES

BENEFITS

CHELATED TRACE MINERALS

Increase bioavailability for improved performance, including growth and fertility, especially during times of stress and when antagonists such as molybdenum, sulphur and iron are present in the diet. Improves hoof and hair quality

ORGANIC SELENIUM

Increased bioavailability enhances immune function and fertility

HIGH VITAMIN LEVELS

Enhance growth and development and support immune system

*Monitor intake for all minerals to ensure adequate consumption. Co-op Feeds recommends making mineral available to livestock at all times of the year. This is a partial product listing. Additional options exist: minimum 2T order required.
